

Dear Potential Clients,

Because the remodeling/building process relies heavily on customer service and trusting relationships, I thought I would introduce myself. I am a native of Duluth, MN and began my 26 years of building experience while I was still just in high school. Even then, I took pride in what I could create and felt great about the positive feedback I received from homeowners. Throughout my adult years I continued to learn by working for various builders in Duluth area. I attended the University of MN and also completed a 4 year Construction Management/ Apprenticeship program from Lake Superior College. The combination of the three gave me a wealth of knowledge and confidence to continue to do bigger and better things within my craft. In 1995 I became a MN Contractors License holder which literally “tests” builders’ knowledge in every phase of the construction process and in MN obtains and maintains a builder’s creditability. As the years passed and I reached “the top of my game” in Duluth I decided to move with my wife and two children out to Colorado for a new challenge.

I began my career in Summit County in 2003 by working for a well established contractor. It was at this point I dug into estimating and management more heavily as opposed to some of the more labor intensive aspects of building that I had done for so many years. From there I moved on to another established company based out of Avon, CO and after just 7 months was promoted to General Manager. It was there I met my soon to be business partner to start the next step of my career. For two years, along with a partner I owned and operated Blueprint Construction which was a successful and rewarding venture. We focused our efforts on high end remodels and additions mostly in Eagle County. From that, I gained the knowledge and confidence that it takes to run a thriving business. In 2008 I became principal owner of Blueprint Construction CO, LLC.

As a lifelong builder I truly gain satisfaction from a job well done. I have a myriad of past clients that would love to serve as a reference.

Please feel free to contact me with any questions.

Best Regards,
Mike Rookey
